COAST ITEMS.

A flour mill is to be erected at Los Angeles

The rain of the 6th was pretty general throughout the State

A franchise has been granted to a new coal gas company at Marysville

The Democrats of Marysville will contest the municipal election against the Citizens ticket

A child, aged three years of C C Campbell San Jose poured kerosene in the fire on the 6th and came very near being burned to death

The seepage and sewage water is nearly out of the R street section of Sacramento and street repairs are to be commenced at an early day

The debt of the city of Los Angeles amounts to $451 000 The Charter Committee has resolved to limit the city's indebtedness to $510 000

Farmers living in the vicinity of Castroville Monterey county are compelled to foot it to town owing to the fact that the roads are impassable to stock

The north drift of the bottom or 500 foot level of the Alaska mine, located near Grass Valley is producing some of the richest rock ever taken out in Nevada county

Frazier the highwayman was lodged in his old quarters Marysville jail on the 6th Sentence will not be pronounced upon him till next term, the County Court having adjourned

The flood has done somebody good Many citizens of Rio Vista are said to be reaping a rich harvest of drift wood now that the high water is carrying everything down with it Fence posts seem to be the best found so far

The Rio Vista *Gazette* (Solano county) states that hunters are killing large numbers of beavers now that the high water has driven them out of their holes Beaver tails are considered a rare delicacy by Rio Vista connoisseurs

The Los Angeles Chief of Police reports that thefts to the amount of $11,270 75 were committed in that city during 1877, of which $7 250 has been recovered the balance being the amount stolen from the Lompoc Workman safe

The Kearney wing of the Workingmen's party at Sacramento nominated the following ticket for the municipal election on the 12th Mayor, Jacob E Turner Chief of Police Timothy Lee Fire Commissioner J C Devine, City Attorney, Henry L Buckley

SUGGESTIONS

[Winnemucca Silver State]

A Paradise Valley correspondent of the *Silver State* suggests that in consideration of the services rendered the State by Senator J P Jones on the silver question that he be endorsed for re-election by the Democrats and that their nominees for Legislative offices be instructed to vote for him As many Democrats who appreciate the untiring efforts of Senator Jones to release the people from the thraldom of the gold brokers and money lenders of the East would have no objection to his reelection provided they were afforded an opportunity to elect a citizen of Nevada who would represent the interests of the State in the Senate instead of Sharon in the event of their having a majority in the next Legislature, yet, under existing circumstances would not consent to this arrangement why cannot a compromise be effected which would insure the re-election of Senator Jones and give the people a chance to elect a representative to fill the vacant seat of Wm Sharon? This is the era of reconciliation The sectional and partisan animosities engendered by slavery and the rebellion have been buried with the "bloody shirt" Party lines are not very clearly defined and it is rather difficult to distinguish the boundaries which separate Democrats and Republicans After the 4th of March next the United States Senate will be Democratic by a decisive majority and Nevada would lose nothing, but might gain much by having one of its Senators a member of the dominant party but however this may be neither the interests of the State or of party are advanced by permitting William Sharon to play "dog in the manger" until the end of his term We suggest that the fact that both Republican and Democratic conventions endorse Jones for re-election and demand the resignation of Senator Sharon This will insure the election of one Republican and give both parties a fair show to elect the other as Sharon could scarcely refuse to comply with the unanimous request of the people of Nevada and continue to be nominally the representative of a State in which he does not reside and whose interests he does not pretend to represent

The result of the attempt to restore the models to the Patent Office damaged by the late fire bids fair to more than realize expectation About 5 000 models have already been restored and from present indications the whole number capable of being put in good condition will reach at least 7 000 more than the Commissioners estimate, or about 15 000.

INTELLECTUAL TEST OF NATIONS

So far as the general ability of the people of a nation to read and write is a proof of their superior enlightenment the Americans have no rivals in the world We are 42 000,000 The population of England Scotland Wales and Ireland is 35 000,000, of France, 36 000,000, of Germany, 42 000 000 In 1870 there were published in the United States 574 dailies, 4 295 weekly and 1 002 other papers and periodicals In 1877 the figures were dailies 709, weeklies 6 221, all others 1 014 total 7 944 England has but 2 252 Germany but 1 985 France but 1,559, and Italy but 935 The total for the four nations embracing an aggregate population of 157 000 000 is but 6 731, or 1 213 less than supplies the American population of 42,000 000 The distribution of our daily and weekly papers among the several States is instructive. They are not by any means apportioned according to population, though New York is always first It appears that New York has 97 dailies, Pennsylvania comes next with 76, Illinois third with 47, and curiously enough California fourth, with 45 In that State with less than 800,000 of the European race they have four more papers than Ohio with her three million 15 more than Massachusetts or Indiana 17 more than Missouri 20 more than Iowa, as many daily ones as Wisconsin Virginia and Georgia and more than eight times as many as either Minnesota Delaware or Oregon If then the reading of the current publications is an infrangible test of the superior instruction of a community generally the population of California stands at the very summit of modern civilization so says a California exchange

When a man wants to call a puppy he whistles, but a girl just walks along with her handkerchief floating across her shoulder

SATURDAY MARCH 9 1878

NEWS OF THE MORNING

The Secretary of the Treasury has determined that the first silver dollars to be issued will be used in exchange at par for gold coin or for the purchase of silver bullion at the market price He has no fear that liberty to use them to pay current expenses until the amount coined is sufficient to fill all demands would justify discontinuing their further issue, with it at present being used for the purchase of silver bullion at market rates

Some think the Supreme Court of Louisiana will order Anderson's release which prospects gave to Nicholls for setting aside and thereby rendering himself unpopular

The President has nominated Hon Rolly Postmaster of Houston N

Frank M Rose an old and esteemed citizen of Portland Oregon, committed suicide Thursday at his home near Hillsboro, Lane county, by shooting himself through the heart with a rifle D is thought he had been in poor health for some time

A rumor prevails in British official circles that a supplemental and secret treaty has been agreed upon between the Czar and the Sultan, about the terms of which considerable uneasiness is felt

A big snow storm has visited Wyoming All trains are delayed in consequence

Cariboo continues to excite much attention

The California Assembly Committee on Corporations met during recess yesterday and had Indies bill to encourage mining industry and prevent stock gambling under consideration J A Hayworth appeared before the Committee and argued at some length in support of the bill Mr Swift moved to recommit the bill back with a recommendation that it do not pass, lost The bill was then recommended for passage by a vote of 4 ayes to 3 noes

Grand Prize has passed her dividend

The wife of Senator Jones and other members of his family left Washington last night for Gold Hill Nevada

A Havana dispatch says It is officially reported that the number of insurgents who surrendered from February 25 to March 5 is 1 230 persons, with 180 stand of arms Of the prominent chiefs Maximo Gomez, Benitez and Rodriguez have embarked for Jamaica and Salvador, and Cisneros Marquis of Santa Lucia, for Europe

The Russians are actively constructing intrenchments from Kadikoi to Shiroi, on the Sea of Marmora They have now about 18 000 men with cannon in three lines which confront the Turkish lines across the neck of the Gallipoli peninsula

THE YELLOWSTONE PARK

The Secretary of the Interior on Thursday sent to the House a communication recommending an appropriation of $100,000, to be expended in carrying out the intention of the Act of March, 1872, relative to setting apart a tract of land near the Yellowstone river as a public park to be under the exclusive control of the Secretary of the Interior who shall make such regulations as he may deem proper for the preservation of all timber, mineral deposits, natural curiosities and wonders within said park, and their retention in their natural condition We trust Congress will concur in the recommendation One of these days the Yellowstone country will be the wonder of the world and the most popular public resort in the United States

The conference called to settle the European question will meet at Baden Baden Germany It will probably continue something over a fortnight here Bismarck is the mutual friend between Austria and Russia and it is even hinted strongly that a secret understanding has already been had between Austria, Germany and Russia whereby England is to be squeezed

Sargent made a good speech on the Chinese question in the Senate Thursday Booth will speak next week 'The Chinaman must go "

Small flowers will take the place of the large flowers worn this Winter

THE RAILROAD DEBT.

The refusal of the Union and Central Pacific to consent to an equitable arrangement to cover their government indebtedness is not a case of "can't pay," it is a plain case of won't pay And hence we hope the bill agreed upon by the Senate Judiciary Committee to compel them to pay will become a law The bill requires the Union and Central Pacific road to pay into the treasury annually such sums as will by 1904 liquidate the principal and interest of their debt to the government These sums will be made up by the payment of $1,500,000 cash every year together with 25 per cent on the net earnings of the road The net earnings about which there has been so much dispute are defined to mean all that remains after the running expenses Hence this bill will be that much more lenient than the bill proposed last year The bill also provides that but half the amount due for government transportation shall be paid the road It is not proposed to make the bill apply to other than the main stem, that is the Union Pacific and Central Pacific for the reason that the branch roads are not in a condition to meet the requirements Another important question is as to whether the companies shall be made to pay simple or compound interest on their debt to the government Under the decision of the supreme court in 1875 it was settled that the companies were compelled to pay any part of the interest on the government bonds until maturity It was not decided however whether that interest should be compound or simple Of course, the companies have their own private opinion about the matter, but so has the government The government has been compelled to pay interest annually on the bonds which they guaranteed to the road so that every year adds interest on interest The government very naturally thinks that the companies ought to remunerate it for all that it has paid out and the importance of the matter is readily seen when it is stated that the estimated difference to the government is over twenty millions of dollars which it will be surely swindled out of by the companies paying only simple interest This bill is not what the roads want What the roads wanted to do was to be allowed to fix their own annual payments and be relieved from tax on the net earnings but the trouble was that they only offered to pay a million a year and then wanted to palm off on the government six million acres of worthless land at $1 25 per acre It is expected that the bill will meet with opposition from a few eastern men whose constituents are interested in the roads but it is believed that the bill will pass both houses in substantially the form it is in at present

Since the above was in type we learn that the bill provides as its main feature that the Union Pacific and Central Pacific Companies shall each pay $750,000 into the United States Treasury annually, and the Government shall allow the sinking fund to be credited with $7,000 000 for each company as the estimated value of 6 000 000 acres of land returned to the United States This is not near so good a settlement as the Government is entitled to The idea of taking back six million acres of almost worthless land at $1 25 per acre is an outrage

Mrs Gen Eaton —A Washington *Post* reporter has succeeded in interviewing the venerable widow of General John M Eaton, the woman who was all powerful in Jackson's time Though eighty Mrs Eaton is still full of vigor grace and animation, her form is straight and lithe her hair though nearly white is abundant and soft and her dark violet eyes, are full of lustre and spirit She told the reporter of a grand dinner party given by Queen Christine to Espartero which she attended where bright hued birds flitted about the room and fountains of perfume were discovered ... that the service was of gold with jewelled handles on the knives and a large hall was turned, with earth, shrubs and flowers into a real garden, where life sized figures moved about, controlled by invisible machinery Isabella Segunda, she says was a repulsive girl, exhibiting personal coarseness, offensive hauteur and arrogance

Governor Nichols has convened the Louisiana Legislature in extra session for fifteen days, specifying the matters for consideration including the Revenue and appropriation bills The extra session will cost the State about $75,000.

EDITORIAL NOTES

As usual the California Legislature will adjourn without doing anything for the people on the railroad question The Senate a day or two ago laid on the table a resolution reciting that it was the duty of the Legislature at this session to regulate railroad traffic The vote was 22 to 16 so Steve Gage holds the fort by six majority The people will find out in the sweet bye and bye that the C P R R owns the country

The Winnemucca *Silver State*, one of the leading Democratic journals of the State, pronounces in favor of the proposition that both Republican and Democratic conventions endorse Senator Jones for re election, and suggests that the Democratic nominees for the Legislature be instructed to vote for him Let us shake across the bloody chasm

There is a vacancy in the Board of Commissioners of Eureka county, and the local papers report "a dozen Richmonds in the field, and also that a good deal of intrigue is being carried on They further declare that Bradley has left the State to avoid the responsibility of the appointment

Kearney is fast becoming high toned His latest honor consists in being elected Lieutenant General of the military branch of the Workingmen's party of California He is not yet "a biger man than old Grant " but stands off Sheridan

The Sacramento papers eulogize the nominees of the Workingmen for Mayor of that city As though it was quite an exception to the general rule! The best officers the country has ever had have been taken from the ranks of the laboring classes

One of the San Francisco Fire Commissioners has decamped for Honolulu being a defaulter to the tune of $10 000 If captured it is almost certain that his punishment will be greater than that of Duncan who stole over a million Such is law

All United States silver coin was a legal tender for all debts in this country up to 1853 Since then the subsidiary coin—that is coin of smaller denominations than one dollar—has only been a legal tender to the amount of five dollars in any one payment at which it remains The silver dollar was a full legal tender until 1873, when no provision was made for its further coinage Gold is the standard in England and some other countries, while in China, India and other countries silver is the sole standard. Again, some countries—including the Latin Union—have the double standard, of gold and silver

The Grass Valley *Union* is indebted to Hon G W Giffen for a copy of his bill to provide for the construction of a railroad from Truckee to Lake Tahoe It provides for a franchise for thirty years to A J Bayley J F Moody, J. A Huntington, J P Bayley, H M Hollister their associates and assigns The bill is almost an exact copy of the one passed by the Legislature under which the Nevada County Narrow Gauge was built and allows special rates of charges

The trade mottoes of some of the London associations are curious The blacksmiths, for instance, By hammer and hand all arts do stand the distillers, Drop as rain, distil as dew, the founders God the only founder, the merchant tailors, "Come ye blessed—when I was naked ye clothed me," the joiners "Join loyalty and liberty, the saddlers 'Hold fast sit sure, the weavers "Weave truth with trust and the needle makers, "They sewed leaves together and made themselves aprons'

There is a project that Congress shall revoke all the land grants made to railroads where the roads have not complied with the conditions of the grant thus restoring about ... million acres to the public domain We consider the prospect a slight one Congress has not shown much of an inclination lately to favor the people when corporations are interested

A Japan correspondent says that he saw wrought in inlaid work on a door several hundred years old in the Temple of Igmoto, a scene showing first a monkey then an ape, then a gorilla, and so on up by gradual development until the final one of the series was a perfect man, surrounded by elephants and curious birds

A MARDI GRAS INVITATION.

Memphis has become celebrated all over the world for her Mardi Gras festivities The mysterious Ulks spare neither pains nor expense to entertain their friends in regal style on that occasion The cards of invitation are in themselves worthy of notice They are shaped like a keystone, and are about six by seven inches in size Each card is printed in blue gold, black and green On one side is a great owl, whose body and head occupy the keystone, while the wings have two separate cards to themselves, which are concealed in the keystone and can be drawn out at pleasure, making a spread eagle—that is to say a spread owl of the bird in raising the dimensions of the card to one foot from tip to tip of the owl's wings and giving it a shape for which the English language has no name Above the green owl is the golden legend Ye Ulks Memphis, Tenn, while on the shield which the bird supports is March the 5th together with some characters which no fellow can make out The other side of the card contains more colors than the chromo sent out with a religious weekly or an average rainbow On the keystone is a large outspread hand, and each particular finger stands on end like quills of the fretful porcupine The words For Lyttel Folk surmount the hand and between the fingers are illustrations of the cat as Ole Bull the dish eloping with the spoon, after the style of a noted general and the cow in her celebrated acrobatic feat of jumping over the moon The thumb and fingers are dressed to represent the characters of "Thumb Bod Thibuths Flold, Long Man" "Lick Pan and "Mimmas Little Man On the right wing an aged frog sits in gorgeous array and over his head the inscription "For Old Folke On the left wing a parrot in his good clothes, and overhead For Great Folke, The whole card is suspended by two golden cords with silk tassel

THE COST OF PUMPING

The Sutro *Independent* contains a lengthy article giving estimates of the area draining into the Comstock mines, the average rainfall and the expense of pumping this water to the surface and the conclusion is reached that the total cost—including interest on money invested, damage by floods and delays in working the mines—amounts to $4,644 000 per annum The *Independent* goes on to say

If the flow of water in the mines and the present actual expenditures do not quite come up to the above figures, they surely will long before they all reach then 2500 foot level, The mining companies claim that there are not over 200 miner's inches pumped from the mines at the present time We do not know whether this is correct or not but think it to be far below the mark But let us suppose it to be correct the expense would even then foot up 56 per cent of the above sum, and the direct cost would amount to $3 612 per day $108 300 per month $1 300,300 per annum while adding the indirect cost the total expenses will then figure up $7 224 per day, $216 720 per month and $2 600 640 per annum The level 2 500 feet from the surface where the full flow of water will be experienced is the point at which the mines will have to be abandoned provided the Sutro Tunnel does not come to the rescue by creating a new surface for the discharge of water and thereby adding 1 645 feet to the possibility of carrying on mining operations on the Comstock lode

The elevated railroad of New York has just given out a contract for the manufacture of twenty locomotives for the road These engines will be as nearly noiseless as modern ingenuity can make them Through a series of pipes the steam is to be exhausted so that there will be the least possible escape of it The engines are to be inclosed, so that the car will cover the whole locomotive and nearly altogether conceal the working gear while the interior is to look as much as possible like that of a Pullman car The cost of one of these engines which will weigh about fourteen tons, will be about $25,000 The New Yorkers intend to have the best possible coaches on their new road and for this reason the car contract has been given to a firm in Detroit

At the royal weddings at Berlin a curious ceremony, if ceremony it can be called, took place This was the traditional torchlight dance of the Cabinet Ministers of the Emperor, in which the renowned Bismarck bore a conspicuous part It must have been an interesting sight to see these great dignitaries threading the mystic mazes of the dance under torchlight To the American citizens present it no doubt recalled the torchlight nights of the late election period

BATTLE MOUNTAIN AND AUSTIN RAILROAD.

The Austin *Reveille* of the 7th has the annexed relative to a project which has been but little talked of of late

W H Spaulding departed for Battle Mountain to day, at which place he will meet a party of gentlemen who are now on their way to Austin from the Eastern States to investigate the Little Mountain and Austin Railroad proposition and make arrangements to build the road should a satisfactory showing be made

On account of agitation of this matter having died out of late our people have grown somewhat apathetic and lukewarm This is not as it should be and there ought to be a revival of interest It is all well enough now when the want of a railroad is not severely felt, but how will it be ten from five to ten years from now? Inside of from five to ten years the timber will be so far removed that the cost of wood will be so high that the expense of mining and milling will be enhanced to an extent that will seriously interfere with the successful mining A railroad with a short branch running up into Reese River Valley would bring into easy reach an immense belt of timber sufficient to supply us for an indefinite period and even were there probabilities of the early exhaustion of that the railroad would insure a supply of coal to take its place This however is not the only advantage to be derived from the railroad

Our merchants and others doing business with one fifth the capital they are now forced to employ as they could get goods every day or as they needed them and would not be compelled to carry such large stocks as now,

The road would bring and send to us the trade of Ellsworth Grantsville Ione and all that section of mining country in Western Nye county now becoming so prominent and perhaps in time the trade and freighting of Belleville Columbus, Silver Peak Lida Valley and that section of Esmeralda county as via Austin will be the most feasible teaming route to these points

The road would increase our population and help to open mines in this and adjacent districts by affording an easy and cheap means for people to come and view our mining resources

In short there is a score of strong arguments to show why a railroad would be an advantage to Austin The fears that it would injure certain interests are idle, for it would have an opposite effect and by increasing trade enhance those interests It is a notorious fact that no place ever suffered from a railroad except those places which the road gave the go by Austin was injured by the Central Pacific because it left her ninety miles to the southward Had the road passed through Austin she would to day have been one of the most important towns in Nevada, and Lander county the greatest county in the State Give us railroad communication with the C P R R and our naturally geographical position will secure us trade and build up the town

A pioneer cremationist in New York asserts that he can destroy four human bodies for the insignificant sum of $2 50 If the undertakers don't succeed in "seeing" this cremationist soon, he may ruin their trade

Chinese sell their ... patient fellows They don't talk of making money until they pay ... They soon make up for lost time then.

We hear of no Renoites who intend to "do" the Paris Exposition. Money is too scarce with those who would like to go, and Mackay has engaged the services of his valet de sham.

The Con Virginia yield for the month will be over $1,500,000. California will make her first shipment on March account Saturday night. It will be about $240,000.

Senator Jones will be here in May, provided he finds it possible to leave Washington without neglecting his congressional duties.

The San Francisco *Call* appears in a new dress and looks very handsome. The *Call* is a splendid newspaper.

The evergreen decorations which have been in the M. E. Church since Christmas 1876, have been taken down. The gas is in, and altogether the old church looks odd.

Brien, Cowie and Ah Dock are charged with felony before the Storey County Grand Jury. The Jury adjourned until the 12th.

The discount on silver is now only 3½. So much benefit have we realized already from the Silver bill.

Dan Ash reports the forwarding business remarkably dull. But very little freight is being sent north.

The weather was pleasant yesterday. In these dull times it is well to note all atmospheric phenomena.

Some of the county official blue ribbon brigade have fallen from grace. Look at Hymers' nose.

The bonanzas have declared their usual $2 div., the same payable next week.

New Patents.

Through Dewey & Co., Patent Agents, San Francisco, we receive the following list of United States patents granted to Pacific Coast inventors: J. H. Cavanagh, S. F., screen; J. L. Heald, Vallejo, stop-cock; E. Carter, Folsom City, Cal., bee-feeding device; F. Hanson, Nevada City, Cal., fumigator; (re-issue) J. L. and G. W. Stevens, S. F., cases for transporting eggs.

Mush and Milk.

The Methodist folks surrendered last night to the large crowd who invaded them after that mush and milk. The charade, etc., were all good, and fully enjoyed, but when it came down to the eatables, then general business commenced. After last night's experience the popularity of mush and milk is established.

Our Weekly.

The Weekly Journal issued to-day is one of the best numbers ever sent out, being a fine double sheet, and immeasurably superior to any other weekly issued from any interior office on this coast. Send a copy to your Eastern friends.

Trustee Meeting.

The Trustees of the Reno Fire Department are requested to meet at the office of C. A. Richardson, Justice of the Peace, on Saturday evening, March 9th, at 8 o'clock sharp. By order of the President.

J. M. Flanagan, Secretary.

Ah Choney.

The Sam Sing Company, in California, are said to have raised $2,000 and employed a Sacramento lawyer to come to Reno and defend Ah Choney, against whom stands the charge of murder and arson in Washoe county.

A Falling Stock.

Grand Prize still continues to drop, and is now down to 7. Report says the mine is filling with water and the pumps can't handle it. Probably only the insiders know the true reason of the decline.

The case of A. Jose vs. Robert Steele, was tried before Judge Richardson yesterday. At 9 o'clock the jury came in and stood 10 to 2 in favor of a verdict of $62 for plaintiff.

I. O. G. T's. meet to-night at their hall over the Congregational Church. We learn they are studying up a temperance drama which they will give in one of our halls before long.

There are about 4 000 woodchoppers at Virginia who are to be set to work in the mountains in about a month. Reno will be overjoyed at this ray of hope.

Spring is coming; at least we infer so from the fact that grass is springing up at all hands. The weather is so fickle that it must be discouraging for the grass.

The story comes that a 30 pound trout was caught near Wadsworth on Thursday. We suggest a new candidate for membership to the Sazerac Club.

Please don't get off that antediluvian joke about the year having only 325 days, because 40 are Lent. Have more reverence for the aged.

The Fire Trustees should remember that meeting this evening. Business of importance to the Department will be transacted.

The man who got mad over that comic valentine portraying his weak points has just got so that he can smile faintly.

A party left Reno yesterday for Mud Lake, in quest of fish and game.

When a buzz saw claims a finger for its own it rarely happens that the former owner of the digit gives a single thought to the speed with which the saw revolves. This shows great negligence in the acquirement of knowledge on the part of the loser of the finger, but it is nevertheless the case that at such times the mind is so preoccupied with its own affairs that it gives little heed to the gathering of valuable information. An observer of the habits of the buzz saw has figured the thing out and finds that the rim goes at the rate of two miles a minute, and sometimes faster. This is reliable and valuable, as it cost the compiler two fingers and part of a hand to obtain the statistics. Familiarity with a buzz saw don't breed contempt.

There are 268 ink manufactories in the United States, and yet some men have a heap of trouble to get their note of hand endorsed by a responsible citizen.

Pastoral Letter.

The Right Rev. Dr. O'Connell, Bishop of Grass Valley (the State of Nevada is included in his Diocese), has issued his Lenten Pastoral letter under date of February 6th:

LENTEN REGULATIONS.

1. All the faithful who have completed their twenty-first year are, unless legitimately dispensed, bound to observe the fast of Lent.

2. They are allowed to make only one meal a day, excepting Sunday.

3. The meal allowed on fast days is not to be taken till about noon.

4. At the meal, if on any day permission should be granted for eating flesh, both flesh and fish are not to be used at the same time, even in the way of seasoning.

5. A small refreshment, commonly called collation, is allowed in the evening; no general rule as to the quantity of food permitted at this time is or can be made. But the practice of the most regular Christians is, never to let it exceed the fourth part of an ordinary meal.

6. The quality of food allowed at a collation, is, in this Diocese, bread, butter, cheese, all kinds of fruits, salads, vegetables and small fish. Eggs and oysters are prohibited.

7. General usage has made it lawful to drink in the morning some warm liquid such as tea, coffee or thin chocolate made with water.

8. Necessity and custom have authorized the use of lard instead of butter in preparing fish, vegetables, etc.

9. The following persons are exempted from the obligation of fasting: young persons under twenty-one years of age, the sick, nursing women, those who, through weakness, cannot fast without great prejudice to their health.

10. By dispensation, the use of flesh will be allowed at any time on Sundays, and once a day on Mondays, Tuesdays, Thursdays, (with the exception of Holy Thursday,) and Saturday, except the first and last Saturdays in Lent and Saturday in Ember-week.

11. Persons dispensed from the obligation of fasting, on account of tender or advanced age, or hard labor, may use meat at every meal of days on which its use is granted by dispensation. Others dispensed from the fast from other causes, as well as those who are obliged to fast, are permitted to use meat only at one meal.

GENERAL ITEMS.

President Bartlets of Dartmouth College argues elaborately that endless punishment is the just result of sin. He says that it "harmonizes with the whole current of nature and the general scheme of God's word."

An eccentric and useful sheep is kept on a steamer plying between San Francisco and Stockton. He is trained to go out on a gang plank at a landing when a flock is to be loaded, to show that the approach is safe, and to act as a pilot.

Maryland is about to relax its usury law. A bill permitting a higher rate of interest than six per cent. on special contracts for loans of money has been passed to a third reading in the House of Delegates, and is likely to become a law.

A late comical error appeared in the Parliamentary report of one of the London morning papers. Sir W. Harcourt described Mr. Bright as the Gamaliel of Birmingham. In the paper alluded to this is turned into "the game bird of Birmingham."

The Army Medical Museum at Washington has among its curiosities the withered and parched hand and arm of a man who left on the battle-field of Gettysburg. A cannon ball carried it to the top of a high tree, where the wind and sun shrivelled it to its present tanned condition.

At the village of La Clappe, France, recently, a plot of ground planted with vines and olive trees slowly sunk and disappeared, leaving a gulf of a funnel shaped form about 120 feet in diameter at the surface and forty feet at the bottom. One hundred feet from the surface may be seen a sheet of water.

Two years ago a drover started from California with 4 000 sheep. He has just arrived in Texas, having driven the flock all the way, assisted by two well trained dogs. The sheep have increased in numbers, and frequent stops for pasturage have kept them in good condition. They are intended for slaughter in the Eastern market.

GRAND PRIZE AT HOME.

The following from the Tuscarora *Times Review* of the 7th will be of interest to Grand Prize stockholders:

Yesterday Grand Prize tumbled over two dollars per share, not less than 2,270 shares being sold at prices ranging from $19¾ to 10¼. The bear movement is stronger against Grand Prize than any other stock on the Board, and the operators took advantage of the absence of President Grayson from this city, and jumped square upon Grand Prize's back, with the above result. How this was effected we do not know, but from information which is reliable we are informed that for some days past the "shorts" have been selling the March dividend for seventy-five per share, endeavoring to give the public the idea that there will be none this month. The same thing was done in February, but the regular dollar was forthcoming, and the sellers had to meet their margins. There is no doubt in the mind of any stockholder here but that they will have to do the same thing again, as there is the utmost confidence felt by all in a steady continuance of the monthly dividend of one piece of our daddys' money per share.

We miss the thrilling cable dispatches describing a battle in which both the Turks and Russians came off victorious. Was the liar shot?

The New York *World* says Secretary Thompson will soon resign from the Cabinet.

Six average sized eggs contain more fattening matter than a pint of cod liver oil, and one don't have to be disinfected after eating them.

Chip hats and bonnets will be worn almost to the exclusion of other straws.

Scarf pins have Japanese decorations in colored gold or oxydized silver.

David Davis is opposed to round dances; so is Susan B. Anthony.

Wanted to Purchase.—A small homestead of from two to ten or fifteen acres of good land, not more than a mile from the Court House. Land near the river preferred. Apply to J. S. Gilson, Real Estate Agent. *

Spring Styles of Hats.

John Sunderland has just received a fine lot of hats from New York, embracing all the Spring styles and novelties. Call and examine styles and prices before purchasing elsewhere. *

S. F. Hoole's Hair Tonic will prevent your hair from falling out, cleanse the scalp of dandruff, and renew its growth. It is a splendid hair dressing. Try it.

S. F. Hoole's Mystic Balm will prevent or cure chapped hands or face—render them soft as velvet and white as snow. Warranted to cure or money returned.

S. F. Hoole's Moth and Freckle Eradicator will beautify the complexion, remove freckles and moth spots—is a harmless and splendid compound for the toilet.

Prescriptions accurately compounded by a scientific Pharmacist—a graduate of twenty years practice—at the lowest rates.

S. F. Hoole's Pharmacy,
* Commercial Row.

Removal Notice.—Osburn and Shoemaker, Druggists, inform their old patrons and the community generally, that they will on the 1st day of February, move into the building occupied by J. N. Jaquish, one door west of their present stand. *

Trees and Plants.—Stephen Connor of the Reno Nurseries, has 50,000 fruit, shade and ornamental trees and plants for sale, embracing every known variety, and warranted to be in first class condition for transplanting. Will be sold at very low rates.*

R. E. Queen, practical druggist and manufacturing chemist. All medicinal and toilet preparations made in my labratory will be of first quality and sold at reasonable prices. Personal attention given to physicians' prescriptions. *

Prescriptions carefully compounded by a graduate of a College of Pharmacy at all hours of the day and night at rates to suit the times at the drug store of

* Osburn & Shoemaker.

The National Gold medal was awarded to Bradley and Rulofson for the best Photographs in the United States, and the Vienna medal for the best in the world.

429 Montgomery St., San Francisco

Osburn & Shoemaker have for sale at their new store the most complete stock of picture frames, picture and cornice moulding ever offered in this market at prices to suit everybody.*

Moved! Moved! Moved!—The City Drug Store will now be found on Commercial Row, where we will be pleased to see all our old patrons and as many new ones as have any use for anything in our line. New drugs and medicines, and sold very cheap.

Matheson & McRae.

N. B.—Prescriptions carefully compounded day or night by a graduate of Pharmacy. You that are afflicted give us a call. *

Osburn & Shoemaker, wholesale and retail druggists, Commercial Row, Reno, (removed to one door west of their old stand) now offer everything in their line at the lowest possible rates—including paints, oils, varnishes and glassware, patent medicines, fancy and toilet articles, bird cages, lamps and lamp fixtures. *

Mrs. Bowers will be found at the Pollard House for the ensuing week. Persons desirous of consulting her in reference to the future as well as the past will call upon Mrs. Bowers at the above hotel. *

HOME AND HOME SHUTTLE SEWING MACHINE.

JOHNSON, CLARK & COMPANY,

MANUFACTU

17 New Montgomery St, San Francisco, Cal.

The HOME and HOME SHUTTLE Sewing Machines were awarded the highest prize and diploma at the Centennial, 1876 and are the Perfection of Mechanism These simple and machines use a straight needle . . . the Lock Stitch have a self adjusting tens n and are adapted to every variety of Sewing for Family wear from the lightest muslins to the heaviest Cloths and will also sew leather They are especially adapted to the wants of

Tailors, Dressmakers, Seamstresses,

Manufacturers of Clothing Shirts,

Skirts, Corsets Ladies' Boots,

Umbrellas, Etc , Etc , Etc

THE HALL TREADLE

Is the greatest improvement ever invented in connection with the sewing machine and we being the sole agents for the Hall Treadle have concluded to apply it to every Home or Home Shuttle Sewing Machine sold hereafter on the Pacific Coast without extra charge Take notice that every other Sewing Machine with the Hall Treadle costs $12 extra

The Home and Home Shuttle Sewing Machines with Hall Treadle attached are the lightest run ning and superior to any machines and for all practical working purposes

Simplicity, Strength and D

They are unapproached by any other Machine yet invented

The Hall Treadle will be attached to any other machine if desired Mr. Jaquish invites all to visit his place and see how it operates.

J. N. JAQUISH,

Agent for Reno and Northern Country.
